Hands-on Quality

Pyramid Mountain Lumber, Inc., family owned and operated since 1949, offers a personal, hands-on approach to lumber production. Maintaining an experienced team of resource foresters, Pyramid is able to ensure that quality begins in the forest.

Together our foresters, mill managers, and sales personnel provide the very best products in a timely manner. Foresters project specie type and size, allowing the mill to anticipate what it will produce. Our Sales Office is kept current with this information, enabling it to project several weeks in advance what products will be available for purchase. This streamlines production and allows for quality management.

When you deal with our Sales Office, you are dealing with the people who are in direct control of the product you receive. With a proven reputation for quality, honesty, and fair dealing, Pyramid is ready to meet your needs.

What does this mean to you?

▲ **Personal Service**

▲ **Quality Products**

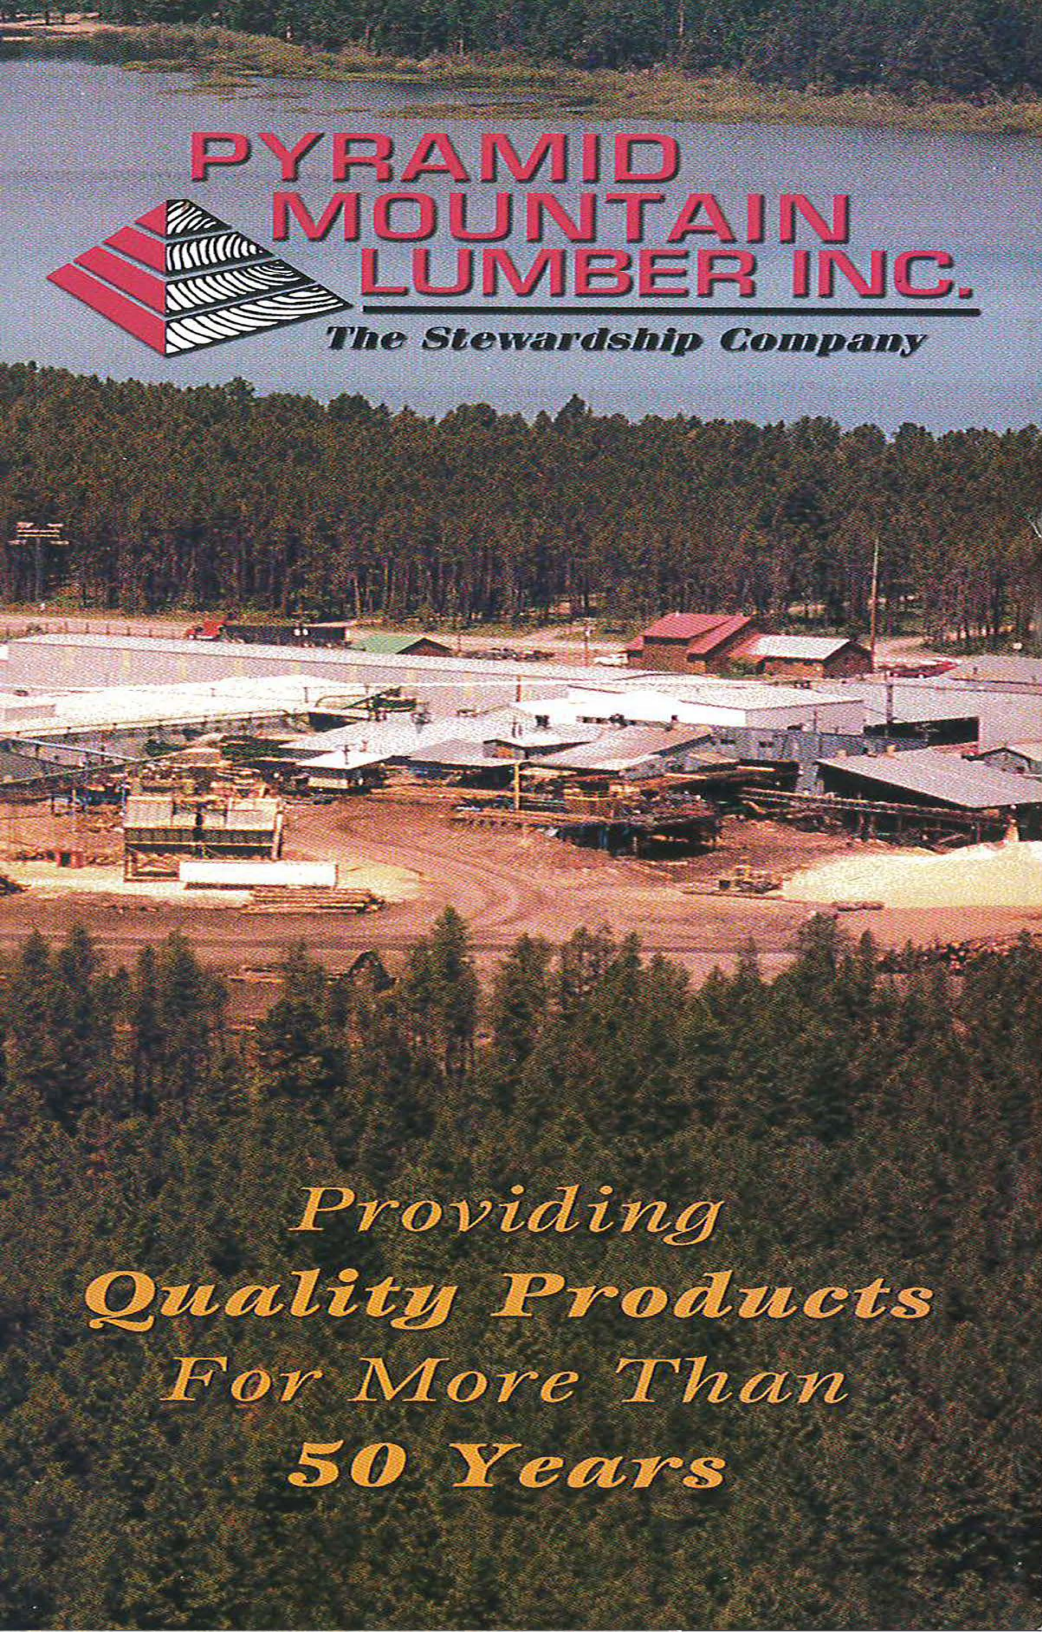

▲ **Timely Delivery**

Pyramid foresters insure harvesters are using Forestry Best Management Practices which comply with EPS's Section 208: Non-point Pollution Requirements.
